WORK EXPERIENCE

Jr. Frontend & Flutter Developer | Full-time

Jul 2025 - Present

Barqen Ltd.

Remote • London, UK

- Developed interactive user interfaces using **React** and **Next.js** to enhance user experience.
- Built cross-platform mobile applications with **Flutter**, optimizing performance and responsiveness.
- Implemented responsive designs utilizing Tailwind CSS to ensure accessibility across devices.
- Collaborated with backend teams to integrate **Firebase** for real-time data synchronization.

Technologies / Skills Used : React, Node.js, Next.js, Flutter, Tailwind CSS, Firebase

Flutter Developer | Internship

Jan 2025 - Jun 2025

Echo Pass Tech

Remote • USA

- Developed mobile applications using Flutter and Dart for enhanced user experience.
- Utilized Flutter SDK and Android Studio to streamline the development process.
- Collaborated with cross-functional teams to deliver projects on time.

Technologies / Skills Used : Dart, Flutter, Flutter SDK, Android Studio

Jr. Frontend Developer | Internship

Feb 2024 - Dec 2024

Wide Star Tech

Remote • Bangladesh

- Developed responsive web applications using React and Next.js to enhance user experience.
- Collaborated with the design team to implement UI components using HTML5, CSS3, and Tailwind CSS.
- Integrated backend services with Node.js and Express for reliable data handling.
- Utilized Firebase for real-time database management, improving application performance and scalability.

Technologies / Skills Used : HTML5, CSS3, Tailwind CSS, React, Next.js, Node.js, Express, Firebase, Database

PROJECTS

Bajar (E-commerce Platform)

[Live](#) | [Code](#)

Lead Developer

- Built a **full-stack e-commerce** platform where users can browse products, manage carts, **authenticate** with Google or email, and complete secure online purchases. Enhanced user experience by implementing responsive design with Tailwind CSS.
- Implemented product search, **filtering**, shopping cart, wishlist, and order management to create a complete online shopping experience.
- Integrated secure **payment** processing with **Stripe** and **Firebase Authentication**, ensuring seamless checkout and user account management.
- Developed **responsive** and accessible interfaces using React, Next.js, and Tailwind CSS, improving usability across desktop and mobile devices.

Technologies / Tools Used : React, Next.js, Tailwind CSS, Firebase, Stripe, Node.js

MA Education (Global Education Agency Website)

[Live](#) | [Code](#)

Frontend Developer

- Developed a responsive website for an **international education agency**, enabling prospective students to explore study-abroad opportunities, academic programs, and admission information.
- Built intuitive navigation and interactive pages that simplified access to university details, application guidance, and contact services.
- Optimized the website for desktop and mobile devices, ensuring a fast, consistent, and user-friendly browsing experience.
- Collaborated on implementing reusable UI components and modern frontend architecture using React and Next.js.

Technologies / Tools Used : React, Next.js, Node.js, Tailwind CSS, ShadcnUi

Habit Tracker App

[Code](#)

Flutter Developer

- ▶ Developed a **cross-platform** habit tracking application that enables users to create, organize, and monitor daily habits through an intuitive mobile interface.
- ▶ Implemented Firebase Authentication and Firestore to securely manage user accounts and synchronize habit data in real time.
- ▶ Built a subscription-based premium prototype using Stripe, allowing free users to create up to **5 habits** while unlocking **unlimited habit creation** after upgrading.
- ▶ Designed a responsive and intuitive interface with reusable Flutter **widgets**, providing a consistent experience across Android and iOS devices.

Technologies / Tools Used : Dart, Flutter, Android Studio, Firebase, Stripe

Invoice Maker

[Live](#) | [Code](#)

Lead Developer

- ▶ Developed a web-based **invoice** management application that enables users to create, customize, brand with their company logo, and download professional invoices in **PDF** format.
- ▶ Implemented features for managing customer information, invoice items, automatic pricing calculations, taxes, and invoice totals, simplifying the billing process.
- ▶ Enabled users to upload and include their company **logo** in invoices, allowing businesses and freelancers to create personalized, professional-looking documents.
- ▶ Designed a responsive and intuitive interface with local data persistence, allowing users to save and edit invoices without creating an account.

Technologies / Tools Used : React, Next.js, Local Storage, Tailwind CSS, Node.js

Al-Khidmah Organization

[Live](#)

Frontend Developer

- ▶ Developed a modern web platform for a religious, youth, and **community organization** to strengthen communication and increase community engagement.
- ▶ Built dedicated pages to showcase organizational activities, upcoming events, announcements, and community initiatives, making information easily accessible to members and visitors.
- ▶ Designed a responsive and intuitive user interface that delivers a consistent user experience across desktop, tablet, and mobile device.

Technologies / Tools Used : React, Next.js, Tailwind CSS, ShadCnUi, Vibe Code, Resend

SKILLS

Programming Languages : JavaScript, TypeScript, Dart, C, Python

Frameworks & Libraries : React, Next.js, Tailwind CSS, Node.js, Express, Flutter

Tools & Platforms : Git, GitHub, GitLab, Docker, Postman, GitHub Actions, Linux

Databases : Firebase, Supabase, SQLite, MySQL, PostgreSQL
